One law enforcement officer was killed accidentally in 1984. Officer James Reynolds of the Wyandotte County Sheriff's Office was killed in a motorcycle accident while off duty. Officer Reynolds observed a suspect on a motorcycle being pursued by officers of the Kansas City, Kansas, Police Department and joined the chase, at which time his motorcycle went out of control.

His dedication to upholding the law is exemplary to others in the criminal justice profession.

ACKNOWLEDGEMENTS

"CRIME IN KANSAS 1984" is produced as the result of monthly data of offenses and arrests submitted to the Kansas Bureau of Investigation by approximately 260 local police departments, sheriffs offices, and the Department of Corrections. Without their cooperation and expertise, this publication would not be possible.

Numerous other individuals are instrumental in compiling data found in this annual report. Ms. Connie Wilch performed the primary typing duties, while data entry functions were the responsibility of Ms. Judy Ashbaugh, Ms. Karen Bartlett, and Ms. Kellie Slusser. Graphic work was done by Ms. Kathleen Bledsoe; table compilations were completed by Ms. Nancy Leiker. Ms. Pam Dodson and Ms. Mary Ann Rowe provided training to the local agencies throughout the year.

Ms. Mary Lou McPhail bears the responsibility for the supervision of the crime reporting program and ultimately this project.

INTRODUCTION

INTRODUCTION

The state's Uniform Crime Reporting (UCR) Program is in its tenth year of operation. Many developments and enhancements have taken place in that time including a 25% increase in the number of reporting agencies. More accurate and timely reporting by agencies has been realized and most importantly a move towards a new crime reporting system. This new reporting program will capture crime characteristics not available under the current system.

The Kansas program is voluntarily a part of the national UCR program wherein monthly reports submitted to the K.B.I. are in turn forwarded to the F.B.I. for inclusion in their annual publication "CRIME IN THE UNITED STATES." Statistics are collected on Part I offenses which include murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny/theft and motor vehicle theft. These seven crimes comprise the Crime Index and the two terminologies may be used interchangeably hereafter.

The Crime Index is divided into two categories, violent crimes and property crimes. Violent crimes encompass murder and non-negligent manslaughter, rape, robbery and aggravated assault; property crimes include burglary, larceny/theft, and motor vehicle theft. Arson statistics are collected and addressed supplementally and will include data from the State Fire Marshal's office as well. Section I is dedicated to these offenses and will depict relevant information and some historical data.

All other criminal offenses are considered Part II crimes for which arrest statistics only are collected. Arrest data are tabulated by offenses and by age, sex, race and ethnic origin of the person arrested.

Within the National UCR program, administered by the F.B.I., certain guidelines exist for classifying and scoring offenses and arrests, remembering that crimes relate to events and arrests relate to persons. In the instance of a multiple offense situation, only the most serious crime will be counted. By the same token, if several people are robbed at the same time, only one robbery is scored, even though multiple victims are present. When a person is arrested on multiple charges, only the most serious charge is recorded, but if the person is arrested more than once in a reporting period, each separate arrest is tallied. Further, agencies are to report arrests made only for crimes committed within their jurisdiction.

The Uniform Crime Reporting program admittedly has some weaknesses, such as those just mentioned. Realizing those weaknesses and the need for a more sophisticated method of accurately determining the number of criminal offenses for this state specifically, the K.B.I. has been in the process of creating and implementing an Incident-Based Reporting System. This system would allow the collection of Part I and Part II crimes; it would provide more complete information on all crimes (i.e., the weapon used in all crimes, relationship of offender to victim in all person-type crimes, and a more complete accounting of stolen and recovered property). Ultimately, it would relieve the local agencies from the burden of completing monthly statistical reports for the K.B.I. Much planning and preparation has been involved over the last few years with input solicited from a variety of criminal justice entities, primarily the local police departments and sheriffs offices. In August 1984, training was provided to eleven pilot agencies in Incident-Based Reporting (IBR) and those agencies were instrumental in making recommendations to accomplish the final source document to be used in the system. It is the goal of this agency to fully implement Incident-Based Reporting during the year 1985.

SECTION I

OFFENSES COMMITTED

CRIME INDEX OFFENSES

Because of their seriousness and frequency of occurrence, seven offenses were selected by the F.B.I. as Part I Crimes at the inception of the program. These seven include murder and non-negligent manslaughter, rape, robbery, aggravated assault, burglary, larceny/theft, and motor vehicle theft. Each offense is defined by Kansas statute with differences in national definitions being noted.

There were 105,644 reported Crime Index offenses in 1984, a 3.7% decrease over 1983. These offenses were responsible for stolen property totaling $49,865,662, while recovered property amounted to $14,928,860. Tables 10 and 11 reflect offenses and stolen/recovered property by agency for 1984.

The number of offenses for the years 1974 through 1984 is shown in Table 3. Violent crimes (murder and non-negligent manslaughter, rape, robbery and aggravated assault) have increased 30.3% in that time period, while property crimes (burglary, larceny/theft and motor vehicle theft) have risen 10.0%. This represents an overall increase of 11.3% in Part I crimes from 1974 to 1984.

Table 4 reflects clearances for crime index offenses. These clearances totaled 22,223 in 1984 compared to 22,874 in 1983, a decrease of 2.9%.

VIOLENT CRIMES

Violent crimes encompass the first four Part I offenses, i.e., murder and non-negligent manslaughter, rape, robbery, and aggravated assault. There were 8,138 reported violent crimes in 1984, an increase of 2.9% from 1983. These crimes were responsible for 25.8% of the state's reported stolen property. According to time clocks on page 55, a violent crime occurs every 1 hour, 5 minutes. Time clocks for individual violent crimes are found on page 55.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

Kansas Statutes define murder and non-negligent manslaughter as follows:

> "Murder in the first degree is the killing of a human being committed maliciously, willfully, deliberately and with premeditation or committed in the perpetration or attempt to perpetrate any felony," (K.S.A. 21-3401).
>
> "Murder in the second degree is the malicious killing of a human being, committed without deliberation or premeditation and not in the perpetration or attempt to perpetrate a felony," (K.S.A. 21-3402).
>
> "Voluntary manslaughter is the unlawful killing of a human being, without malice, which is done intentionally upon a sudden quarrel or in the heat of passion," (K.S.A. 21-3403).

The national program defines murder as "the willful (nonnegligent) killing of one human being by another," (Uniform Crime Reporting Handbook, 1984, page 6).

Kansas reported the least number of murders last year since 1969. Eighty-nine murders occurred in the state, with two-thirds of those being reported by agencies with populations over 10,000.

Table 16 indicates that 21 of the 89 murders were family-related and 19 of the total number involved other felony offenses. Some type of firearm was used in a little over half of the 89 murders. In 1984, a murder occurred every 4 days, 2 hours, 23 minutes in the state of Kansas.

JUSTIFIABLE HOMICIDE

The national program defines justifiable homicide as:

> "1. The killing of a felon by a peace officer in the line of duty,
> 2. The killing (during the commission of a felony) of a felon by a private citizen."
> (Uniform Crime Reporting Handbook, 1984, page 6)

Five justifiable homicides were reported in 1984, all occurring by police officers. Three felons were killed while attacking police officers, one was killed resisting arrest and the last was killed during the commission of another crime. Three of the victims were white males, two were black males.

NEGLIGENT MANSLAUGHTER

The Uniform Crime Reporting Handbook defines negligent manslaughter as "the killing of another person through gross negligence."

Careless handling of firearms was the cause of two negligent manslaughters reported in 1984, one victim being a white female, the other a white male.

RAPE

K.S.A. 21-3502 defines rape as:

> "...sexual intercourse with a person who does not consent to the sexual intercourse..."

The national UCR program does not include male sexual assaults under the rape definition; those are considered "other sex offenses" and fall within the Part II crimes category.

Reported rapes increased from 627 in 1983 to 665 in 1984 with 526 of the total being actual rapes, 139 were attempted rapes. Approximately one-third of the reported rapes occurred in the third quarter of the year (July, August, and September) while the first three months of 1984 reflected the least number (139). Table 19 indicates that more than one-third of the rapes occurred between the hours of midnight and 4:00 a.m.; table 22 points out that nearly one-half (316) of the assaults, the victim and offender were strangers and further, data in table 23 determined that no physical weapon was involved in 49% of the rapes.

ROBBERY

Under the national UCR program and Kansas law, robbery is:

> "...the taking of property from the person or
> presence of another by threat of bodily harm
> to his person or the person of another or by
> force."

Robberies accounted for 21.5% of violent crimes in 1984; however robberies decreased by 14.4% over 1983. Forty percent of the robberies reported occurred as street robberies, but that category only accounted for one-fifth of the total value taken during robberies. Likewise, 40% of all robberies were committed with some type of firearm; knives were used in 221 instances, personal weapons (hands, feet, fists) were used in 618 robberies and the remainder of the robberies were committed with some other type of weapon.

AGGRAVATED ASSAULT

Aggravated assault is defined in Kansas under K.S.A. 21-3410 as:

> "(a) Unlawfully assaulting or striking at another with a deadly weapon; or
> (b) Committing assault by threatening or menacing another while disguised in any manner designed to conceal identity; or
> (c) Willfully and intentionally assaulting another with intent to commit any felony."

Aggravated assault is defined for the Uniform Crime Report as:

> "An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm," (Uniform Crime Reporting Handbook, 1984, page 16).

Aggravated assault is consistently the largest category of the four violent crimes and in 1984 it represented 70% of reported violent crimes. Aggravated assault and simple assault (no weapon and no injury involved) both reflected a 10% increase over 1983. Simple assaults are considered a Part II crime and therefore are not reflected in overall crime totals; however, there were 15,811 incidents of simple assault in 1984.

The number of offenses by type of weapon used in aggravated assaults was fairly evenly distributed--1,311 by firearm, 1,203 by knives, 1,462 involved personal weapons (hands, feet, fists) and 1,666 were committed with an "other type of weapon."

Burglary, larceny/theft and motor vehicle theft are included in the property crime category. These three offenses represent 92.3% of the crime index and are responsible for 97.4% of the property stolen figure in Table 1.

Property crimes decreased 4.2% in 1984 over 1983. Data on each of the above three offenses are presented in the following pages.

BURGLARY

Burglary in Kansas is defined under K.S.A. 21-3715 as:

> "...knowingly and without authority entering or remaining within any building, mobile home, tent or other structure, or any motor vehicle, aircraft, watercraft, railroad car or other means of conveyance of persons or property, with intent to commit a felony or theft therein."

This definition generally parallels with the national program definition.

Burglaries have continued to show a decrease for the last three years. There were 25,505 burglaries in 1984 compared to 28,277 in 1983 (-9.8%). The number of residential burglaries and the dollar amount of property taken in those crimes both remained constant from 1983 to 1984. Residential burglaries in both years accounted for 63% of all burglaries and the property taken in those crimes totaled 59% of property taken in all burglaries.

The method of entry used in committing burglaries is broken down into three categories, forcible entry (18,310), unlawful entry with no force totaling 5,533, and 1,662 instances of attempted forcible entry.

Almost three-fourths of the burglaries were reported by those agencies with populations greater than 10,000.

LARCENY (THEFT)

Kansas Statute K.S.A. 21-3701 defines theft as:

> "...any of the following acts done with intent to deprive the owner permanently of the possession, use, or benefit of the owner's property:
> (a) Obtaining or exerting unauthorized control over property; or
> (b) Obtaining by deception, control over property; or
> (c) Obtaining by threat, control over property; or
> (d) Obtaining control over stolen property knowing the property to have been stolen by another."

Under the UCR program, all larcenies are counted regardless of the value. Kansas law was changed in 1983 to raise the amount of theft constituting a felony from $100 to $150. Attempted larcenies are included in the totals presented herein as well.

Thefts decreased 2.4% in 1984; however the dollar amount stolen in those thefts increased slightly, 1.2%. Table 29 reflects a breakdown of larcenies, while Table 30 refers to the monetary value stolen in those crimes. It should be noted that the "All Other" category represents 44.7% of the total property taken; however this includes large items of property such as farm and construction equipment, airplanes, boats, etc.

MOTOR VEHICLE THEFT

Even though the theft statute in Kansas (21-3701) includes thefts of automobiles and other vehicles, these are tabulated separately under UCR for the purpose of more accurate reporting and will include attempted thefts as well as actual thefts. It should be noted, however, that when a vehicle is taken in the commission of a greater crime (burglary, rape, etc.) then a motor vehicle theft is not tallied, but will be counted as property taken during the primary offense.

Of the 5,032 vehicles reported stolen under UCR, 3,185 were cars constituting 63.3% of the total, 919 were trucks (18.3%) and 928 were reported as "other" vehicles which would include motorcycles, mopeds, etc.

The total value of motor vehicles stolen for 1984 was $19,447,162 representing 39% of the total dollar value of all stolen property.

ARSON

Arson is defined in K.S.A. 21-3718 as:

> "...knowingly, by means of fire or explosive:
> (a) Damaging any building or property in which another person has any interest without the consent of such person; or
> (b) Damaging any building or property with intent to injure or defraud an insurer or lienholder."

The number of arsons reported by law enforcement agencies increased 9.0% in 1984, while the loss incurred during those arsons reported a 1.2% increase.

Structural arsons, which includes residences, businesses and other structures, accounted for a little over half of the reported arsons. Arsons to vehicles and arsons to "other property" each represented approximately 23% of all arsons. The "other property" category will include crops, timber, items stored outside structures, etc.

Under the Kansas Fire Incident Reporting System (KFIRS) arsons may be reported to the State Fire Marshal's Office. Tables 35-40 will reflect these data and is footnoted as such.

SECTION II

ARRESTS

ARRESTS

Arrest data are provided on the number of persons arrested, cited or summoned for criminal acts in both Part I and Part II Offenses. The age, sex, race, and ethnic origin of those persons arrested is tabulated separately.

Arrests increased slightly in 1984 over 1983 with 22.9% of those arrests being for Part I Crimes. Juveniles represented 35.2% of the total arrests. Overall, there were 15,692 juveniles arrested in 1984 compared to 14,953 in 1983, a 5% increase. Table 48 provides the number of juveniles handled by law enforcement agencies which may not always involve an official arrest. Specific categories are given; however, overall the figure shown, 16,679, represents a 5% increase over 1983.

Table 43 indicates that white persons made up 82.1% of the total arrests, while blacks totaled 16.6%.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

Law enforcement officers may become victims of assault as a consequence of their occupations, and unfortunately sometimes an assault is fatal. Kansas had one officer killed accidentally in the line of duty in 1984. An officer from the Wyandotte County Sheriff's Office was killed when his motorcycle went out of control while in pursuit of a suspect.

Assaults on Kansas law enforcement officers increased 3%, from 1,015 in 1983 to 1,045 in 1984. Data concerning these assaults can be found in Tables 49-52 and will reflect particulars such as time of day, weapon used, circumstances, etc.

SECTION IV

LAW ENFORCEMENT EMPLOYEES

LAW ENFORCEMENT EMPLOYEES

Data are collected on full-time sworn and civilian law enforcement employees for police departments and sheriffs offices throughout the state. These data are categorized by age, sex, race, and level of education, years of service, etc.

There were a total of 5,348 full-time law enforcement employees in the state of Kansas in 1984, an increase of 34 persons from 1983. The discrepancy in totals in Tables 53 and 54 lies in two agencies not submitting necessary information for Table 53. The number of sworn officers for these two agencies was extracted from records at the Kansas Law Enforcement Training Center in Hutchinson for use in Table 54; however, information on non-sworn personnel was not available from that resource.
